## WIDEX CROS FASHION

### WIDEX CROS

Style = FASHION BTE

#### Overview

If you are deaf in one ear and have normal hearing in the other, then WIDEX CROS is for you. The solution can also be used if you are deaf in one ear and hearing impaired in the other. This is known as a BiCROS solution. Superb sound quality, and no echoes or distortion – this makes WIDEX CROS particularly good for hearing speech. By wirelessly transmitting sound from the deaf ear to the better ear, CROS reduces the head shadow effect, thereby diminishing the detrimental effects. And it looks good too. You wear WIDEX CROS on your deaf ear like an ordinary Behind-the-ear hearing aid. It picks up sound from your surroundings and transmits it over to a hearing aid on your other ear. You can choose from a range of models in the DREAM hearing aid family.

- **Hear All Sounds** - Without two working ears, your brain has difficulty working out the precise origin of sounds. This means that it can be difficult to locate sounds. Imagine having to cross a busy street uncertain about which direction traffic is coming from. Because it picks up sounds on your deaf side, WIDEX CROS helps you hear all the sounds around you. That means that you can hear sounds from your deaf side without turning your head.
- **Improved Listening** - Listening to and participating in conversations is also made a lot easier with WIDEX CROS. If you are talking to friends in a restaurant or at a party for instance, you can enjoy, follow and participate in the conversation - regardless of on which side of you the speaker is located.
- **Designed to your specific needs** - For your better ear, you can choose from a range of models from our popular DREAM family. The combination of

WIDEX CROS and the absolute latest in hearing aid technology gives you superb sound quality. And with Widex' wireless technology you will not experience any echoes or distortion when WIDEX CROS is active.

- Outstanding battery life - Due to Widex advanced battery saving technology we use three times less power than other wireless CROS solutions.

## Why Dove Hearing

With Dove Hearing Centres, you'll never get the hard sell when it comes to hearing aids. Instead, we put our complete focus on assessing your hearing, determining the degree of loss and then looking at all the treatment options available to you.

Our hearing specialists will never push you to purchase a product you aren't sure of. Following your hearing test, they will make recommendations on the best course of action and only move forwards on your say so.

Both Neil and Rebecca Cross RHAD MSHAA have over 40 years of experience in hearing care. With Dove Hearing Centres, you will receive free, unbiased advice on how to deal with your hearing loss and the highest level of support possible depending on your individual needs.

## Technical Specifications

---

Phonak CROS II – The solution for single-sided deafness.

## About Dove Hearing Centres

---

Neil and Rebecca Cross RHAD MSHAA started Burton upon Trent Hearing Centre over eleven years ago, it is an independent family run business with over 40 years of hearing industry experience

The success of the business has been based upon giving impartial and professional advice concerning the clients hearing needs and the technology available. The business acquired Wardles Hearing Centre, a 40 year hearing business in 2010, to further expand and develop Dove Hearing Centres the Lichfield branch was opened in 2014.

At their hearing centres in Burton, Lichfield and Stoke-on-Trent they are able to offer a free hearing assessment within a sound proof environment to give an accurate hearing test, which is then explained in detail to you and dependant on the results the decision is made to either have regular check ups or if a hearing aid is required they can talk you through all of the available options.

As an independent Neil and Rebecca work with all the hearing aid manufacturers, unlike many of the national companies who tend to be affiliated to one or two, they can give impartial advice across the wide range of hearing aids, they are also up to 50% cheaper than other companies.

### Services available at Dove Hearing Centres:

- Free hearing test
- Micro-suction wax removal
- Free independent expert advice on all types of hearing systems
- Free ongoing aftercare
- High standards of customer care
